Clinical Key

ارائه از: زهرا فتحی فر ۱۳۹۳/۱۰/۳۰

مقدمه

- ❖ موتور جستجوی بالینی با شعار Lead with answers
- ❖ رفع نیازهای بالینی
- ❖ جایگزین MD Consult
- ❖ انتشار توسط Elsevier

❖ ویژگی ها

- Fast
- Complete
- Convenient
- Trusted

منابع تحت پوشش

- Books بیش از ۱۱۴۰ عنوان کتاب رفرنس
- Clinical Trials تمامی کارآزمایی های بالینی ثبت شده در سایت
- Drug Monographs بیش از ۲۹۵۰ دستنامه دارویی
- Guidelines بیش از ۴۵۰۰ عنوان
- Images بیش از ۲/۲ میلیون تصویر پزشکی
- MEDLINE دسترسی به بیش از ۲۰ میلیون خلاصه مقاله از مدلاین
- Videos بیش از ۱۷۰۰۰ ویدئوی پزشکی
- First Consult بیش از ۸۰۰ ابزار تشخیصی افتراقی که کاربرد آن در بالین بیمار است
- Patient Education بیش از ۱۵۰۰۰ عنوان
- The Clinics of North America مجموعه کامل بیش از ۷۵ عنوان مجله
- Procedures Consult راهنمای عملی و گام به گام بیش از ۳۵۰ تکنیک جراحی
- Full Text Articles مقالات بیش از ۶۰۰ عنوان مجله علمی
- CME مجموعه دوره های آموزش مداوم از Cleveland Clinic

BROWSING IN CLINICAL KEY

The screenshot shows the ClinicalKey website interface. At the top, there is a navigation bar with the ClinicalKey logo and a search bar. A large orange arrow points to the 'Browse' button, which is labeled 'Browse عنوان کتاب و ژورنال و...'. The navigation menu is open, showing options like 'Books', 'Journals', 'More', 'Browse Home', 'Drug Monographs', 'Guidelines', 'Patient Education', 'Multimedia', and 'CME'. The user's name 'zahra fathifar' is visible in the top right corner. Below the navigation bar, there are filter options for 'Specialties' and 'Authoring Organizations'. The main content area is titled 'Browse Guidelines' and includes a search box labeled 'Find by Title'. Below this, there is a section for 'Subscribed Content' with two entries:

- (1) 2006 consensus guidelines for the management of women with abnormal cervical cancer screening tests. (2) 2009 addendum.
American Society for Colposcopy and Cervical Pathology - Medical Specialty Society [2002 04 24]
- (1) ACC/AHA 2005 guidelines for the management of patients with peripheral arterial disease (lower extremity, renal, mesenteric, and abdominal aortic): a collaborative report from the American Association for Vascular Surgery/Society for Vascular Surgery, Society for Cardiovascular Angiography and Interventions, Society for Vascular Medicine and Biology, Society of Interventional Radiology, and the ACC/AHA Task Force on Practice

At the bottom right, there is a 'Help & Feedback' button. The system tray at the bottom shows the date and time as 10:59 AM 1/20/2015.

جستجو در CLINICAL KEY

The screenshot shows the ClinicalKey website interface. At the top, the logo "ClinicalKey®" is displayed in orange, with the tagline "Lead with answers." below it. A search bar contains the text "gastroe" and a magnifying glass icon. Below the search bar, a dropdown menu is open, showing four columns of search results: "Suggestions", "Related", "Books and Journals", and "Authors".

Suggestions	Related	Books and Journals	Authors
Gastroesophageal reflux disease	Fundoplication	Gastroenterology	Gastroent, S J
Gastrointestinal Diseases	esophagus acid reflux test with intraluminal ph electrode	Best Practice & Research: Clinical Gastroenterology	Munich Gastroenterology Group
Gastroenteritis	Esophageal manometry	Clinical Gastroenterology and Hepatology	British Society for Gastroenterology
Esophagogastric Junction	History and physical examination	Clinics and Research in Hepatology and Gastroenterology	British society of Gastroenterology
gastrointestinal system diseases	Barium swallow	Gastroenterology Clinics of North America	Branch of Gastroenterological Diseases
Inferior esophageal sphincter structure	Esophagoscopy	Netter's Gastroenterology	Brazilian Federation of Gastroenterology
Salmonella food poisoning	Smoking Cessation	Pediatric Gastroenterology	Asia Pacific Gastroenterology Group
Acute gastroenteritis	Stretta Procedure	Diagnostic Atlas of Gastroesophageal Reflux Disease	Asociación Española de Gastroenterología
Billroth II Procedure	Reduce caffeine intake	Gastroenterology and Nutrition: Neonatology Questions and Controversies	Asociación Española de Gastroenterología
Viral gastroenteritis	Weight loss advised		Danish Society for Gastroenterology

At the bottom left, there is a footer with links: "Contact Us | Resource Center | Terms & Conditions | Privacy Policy" and "Copyright © 2015 Elsevier, Inc. All rights reserved." At the bottom right, there is a "Help & Feedback" button and a "Show desktop" button.

TOPIC PAGES

- covering epidemiology, risk factors, diagnosis, treatments and more, as well as links to specialty specific answers and related drugs

The screenshot shows the ClinicalKey website interface. The browser address bar displays the URL: <https://www.clinicalkey.com/#/topic/gastroesophageal%20reflux%20disease>. The page title is "Gastroesophageal Reflux Disease (Generalist Overview)". The search bar contains the text "Gastroesophageal reflux disease". The page is categorized under "DISEASE OVERVIEW". The main content area features a section for "Gastroesophageal Reflux Disease" with a sub-section for "Definition". The definition text reads: "Gastroesophageal reflux disease (GERD) is a motility disorder characterized primarily by heartburn and caused by the reflux of gastric contents into the esophagus. A current definition is". On the right side of the page, there is a vertical list of related resources: "Specialty Views", "Related Drugs", "Related Patient Education", "Latest Articles", and "Related Guidelines". The bottom of the page shows a "Help & Feedback" button and a system tray with the date and time: "1:48 PM 1/19/2015".

صفحه نتایج

The screenshot shows a web browser window displaying the ClinicalKey search results for 'gastroesophageal reflux disease'. The browser's address bar shows the URL: <https://www.clinicalkey.com/#/search/gastroesophageal%20reflux%20disease>. The ClinicalKey logo is prominently displayed at the top left. A search bar contains the text 'gastroesophageal reflux disease' with a magnifying glass icon to its right. Below the search bar, a dropdown menu is open, listing various content types: All, Books, Journals, Clinical Trials, Drug Monographs, Guidelines, Patient Education, First Consult, MEDLINE, Multimedia, and Procedures Consult. The search results are displayed in a list format, with each entry including a title, a brief description, and publication information. The visible results are:

- Normal and Reflux-Induced Anatomy**

Help & Feedback

نمایی از صفحه داروها

The screenshot displays the ClinicalKey website interface. At the top, the browser address bar shows the URL: https://www.clinicalkey.com/#!/content/drug_monograph/6-s2.0-2542. The ClinicalKey logo is prominent on the left, and the user's name 'zahra fathifar' is visible on the right. A search bar contains the text 'gastroesophageal reflux disease'. The main content area is titled 'DRUG MONOGRAPH' and features the drug name 'Esomeprazole' in large font. Below the name, it lists 'Esomeprazole Strontium | Nexium' and 'Drug Information Provided By Gold Standard'. A table of contents on the left lists various sections: Indications & Dosage, Administration, Monitoring Parameters, Contraindications, Interactions, Adverse Reactions, Classifications, and References. The 'Description' section is highlighted with an orange box and contains the following text: 'Description: Esomeprazole, the S-isomer of omeprazole, is the first proton pump inhibitor (PPI) synthesized as an optical isomer to become available for clinical use. Esomeprazole is approved for the healing and maintenance of erosive esophagitis, for symptomatic gastroesophageal reflux disease (GERD), for use in combination with antibiotics to eradicate *Helicobacter pylori* (*H. pylori*) in patients with active or prior duodenal ulcer disease, for risk reduction of NSAID-associated gastric ulcer, for risk reduction of upper GI rebleeding after therapeutic endoscopy, and for pathological hypersecretory conditions, including Zollinger-Ellison syndrome. 26477 55689 Esomeprazole has a greater bioavailability compared to omeprazole, which may contribute to higher healing rates reported in studies of erosive esophagitis. 26481 On the basis of available research, no clear advantage has been demonstrated for the use of one PPI over another in the treatment of GERD. Instead, a key to optimizing effectiveness is tailoring dosage timing and considering twice daily dosing; traditional delayed release PPIs should be administered 30–60'. To the right of the description, five orange callout boxes with Persian text are connected to the text by orange arrows: 'کاربرد دارو و مقدار مصرف' (Drug use and dosage), 'موارد منع مصرف' (Contraindications), 'تداخلات دارویی' (Drug interactions), 'عوارض جانبی' (Adverse reactions), and 'رده دارویی' (Drug class). At the bottom right, there is a 'Help & Feedback' button. The Windows taskbar at the bottom shows the system clock as 11:20 AM on 1/20/2015.

محدود کردن نتایج جستجو

The screenshot shows a web browser window with the ClinicalKey website. The search query is "gastroesophageal reflux disease". The search results are filtered by "Source Type" (Patient Education) and "Date" (Last 6 months). There are 85 results shown. The first result is "Gastroesophageal Reflux Disease, Child - Patient Education" by ExitCare, LLC, published December 15, 2014. Other results include "Gastroesophageal Reflux, Adult - Patient Education" and "Gastroesophageal Reflux Disease, Adult [Spanish version]". An "Email" dialog box is open, showing the sender "zfathifar@gmail.com" and fields for "To:", "CC:", and "Message:". The "Send" button is highlighted in blue.

تمرین

- در تخصص بیهوشی چند عنوان ژورنال در این مجموعه داریم؟
- Fluoxetine از نظر رده جزء کدام رده دارویی است؟
- مقالات مرور نظام مند ۲ سال اخیر درباره Gastric Bypass operation مورد نیاز است. تعداد مقالات؟
- جدیدترین شماره این ژورنال را پیدا کنید.
- Journal of clinical Epidemiology
- درباره antidepressants و انواع آن اطلاعات معتبر مورد نیاز است.

با تشکر
